

Institutional Distinctiveness

Fostering Academic Excellence

Curriculum: Sultan-ul-Uloom College Of Pharmacy offers a comprehensive and industry-oriented curriculum designed to develop the technical skills and knowledge required in the pharmaceutical field. The add-on courses to fill the curricular gaps are regularly updated to keep pace with the latest advancements and trends in the industry.

Experienced Faculty: The college boasts a highly qualified faculty comprising experienced professors, researchers, and industry experts. They employ innovative teaching methods to make the learning process engaging and effective. The faculty also provides individual attention to students, assisting them in their academic pursuits.

Research Opportunities: SUCP encourages students to engage in research activities by providing opportunities to work on research projects under the guidance of faculty members. This fosters a spirit of inquiry, critical thinking, and problem-solving skills among the students.

Internships and Industrial Training: The college emphasizes practical exposure and industry interactions. It facilitates internships and industrial training programs in collaboration with leading pharmaceutical companies. This exposure allows students to apply their theoretical knowledge in real-world scenarios and gain valuable industry insights.

Skill Development: SUCP organizes workshops, seminars, and guest lectures by experts from academia and the industry to enhance students' skills and broaden their horizons. The college also conducts soft skills training programs to improve communication, teamwork, leadership, and professional etiquette.

Fostering Social Responsibility

Community Outreach Programs: Sultan-ul-Uloom College of Pharmacy actively engages in community service and encourages students to participate in various outreach programs. These initiatives include health camps, awareness campaigns, and blood donation drives, among others. Such activities foster empathy, compassion, and a sense of responsibility towards the community.

Health Education Initiatives: The college organizes workshops and awareness programs on healthcare and hygiene in nearby schools and community centres. This helps in spreading health-related knowledge among the less privileged sections of society and promotes public health awareness.

Environmental Conservation: SUCP promotes environmental consciousness among students. It encourages sustainable practices on campus, such as waste management, recycling, and energy conservation. The college also organizes tree plantation drives and clean-up campaigns to create a greener and cleaner environment.

Ethics and Values: SUCP emphasizes the importance of ethical conduct and professional values. It inculcates integrity, respect, and social accountability in students, preparing them to be responsible professionals and contributing members of society.

Inclusivity and Diversity: SUCP takes pride in its diverse and inclusive environment. With 75% representation of girls and minority students, the college aims to provide equal opportunities and create an atmosphere of acceptance and respect. This diversity enriches the learning experience by fostering cultural exchange, promoting tolerance, and broadening perspectives.

The college actively works towards eliminating any form of discrimination and ensuring that all students feel safe, valued, and supported. It may have programs and initiatives in place to provide scholarships, mentorship, or other support systems specifically tailored to the needs of underrepresented groups.

Hyderabad: It is not often that you hear someone auction a cake to raise funds, but that is exactly what Rana Siddiqui, 21, a pharmacy student decided to do. "Buy a cake, make a difference!" @thecakesmith_2nd auctioned a 1.5 kg Naked Chocolate Cake on Sunday to raise funds for Humanity First Foundation.

Rana, a student from Saluran-UI-Uloom College of Pharmacy, said, "This is a creative way to propagate the message of charity." She added, "Last time my friend Alisha Akbari auctioned two cakes. One was sold for Rs 4,000 and the other for Rs 8,500. The money was donated to Aquatic Sooloo Foundation and an orphanage at Palakuruma respectively both the times."

Rana lives to bake and takes-out time to follow her passion. The limited bid price is Rs 1,000. The auction ended at 7:30 p.m. on Sunday. The cake was bought by Ryed Irfan for Rs 3,000. The bidding started at 11 am when the first bidder placed a price of Rs 2000.

chocolate ganache and chocolate chips, frosted with sweetened

Rana Siddiqui used 'Ask n Answer' feature on Instagram for buyers to place their bid. Thanks to technology, she was able to do it right from her home.

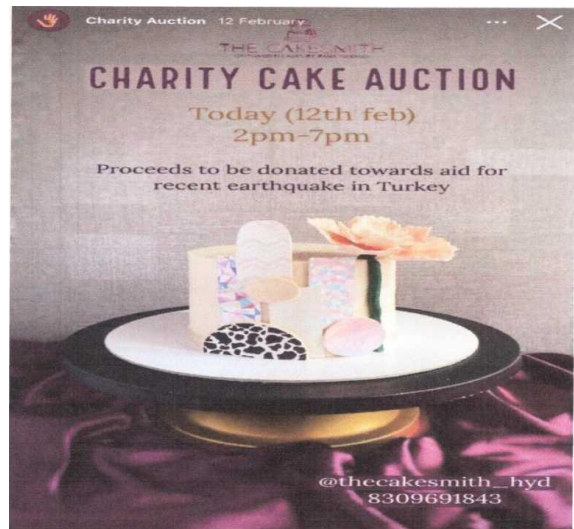

Rana uses 'Ask n Answer' feature on Instagram for buyers to place their bid. Thanks to technology, she was able to do it right from her home. Rana says, "I decided to contribute to Humanity First Foundation. It was founded in 2016 by Mohammed Sujathullah, 26, another Pharm D student from Saluran-UI-Uloom College of Pharmacy who has been doing exceptional work in feeding the hungry in different hospitals in the city."

Sujathullah was elated when he heard about the auction. He said, "Starting funds from cake auctioning is new to our My parents would help me with small donations but this time they came with a novel proposal", he added. "I feel the way people will capture the youth towards the noble cause."

Couldn't have done it without you guys.

Thank you!

Dr Mohd. Sujathullah from the Humanity First Foundation checks oxygen cylinders that will be provided to the needy for free in Hyderabad.

THE greatest service done to humanity is serving the needy. Run by a youngster, an NGO, which started feeding breakfast to the poor at Niloufer Hospital, has completed 2,000 days of its service to the needy at three other hospitals.

The Humanity First Foundation (HFF) serves upma at all hospitals, as it can be easily cooked and served. Cooked with pureghee, 25 kg upma is distributed along with chutney at all hospitals by 9 am, among 1,000 people," said Mohd Sujathullah of HFF.

"I start at 8 am from Maternity Hospital at Koti. Later I arrive at 8.30 am at Niloufer. After completing my work, I proceed to NIMS, Panjagutta, and then Fever Hospital. The quantity is good enough to feed 1,000 persons, be it patients, attendants or any desti-

pleted 2,000 days of free food distri-

bution," Sujathullah says. "Breakfast is an important meal. If someone gets this meal at proper time, he will be able to focus on other things. Lunch would not be any big deal, as the day has already started with something in stomach."
